

Generosity Assessment Data Collection

COLLECTING GIVING DATA:

The Church Treasurer will be provided with the following excel template to enter the **ANONYMOUS** giving data:

Giving Data from the last complete financial year

of households:

of Direct Debit Givers:

Donor #	Total Giving Amount	Age
1	\$ -	
2	\$ -	
3	\$ -	
4	\$ -	
5	\$ -	
6	\$ -	
7	\$ -	
8	\$ -	
9	\$ -	
10	\$ -	
11	\$ -	
12	\$ -	
13	\$ -	
14	\$ -	
15	\$ -	
16	\$ -	
17	\$ -	
18	\$ -	
19	\$ -	

Instructions
Please enter last year's giving totals in the yellow area.

Donor Number - starting with 1 is easiest but this can be any unique number.

Total giving amount - how much did this person give last year? Last year's receipts are one way to do this

Age - estimate the person's age. Just put down one age even if it's a married couple. Don't stress, just guess!

Excel Form for Giving Data
(To be filled out by Church Treasurer)

The giving-data collection is simple. No personal information is required/collected - the giving data is anonymous.
The **number** is just that – the row number. We want each person/household to have a unique number.
For **total giving last year**, follow the church's fiscal year – if your church uses the calendar year, this would be the last calendar year.
The **age** is only an estimate – don't stress, just guess!
