COLLECTING GIVING DATA:
The Church Treasurer will be provided with the following excel template to enter the **ANONYMOUS** giving data:

The giving-data collection is simple. No personal information is required/collected - the giving data is anonymous. The number is just that – the row number. We want each person/household to have a unique number.

For **total giving last year**, follow the church’s fiscal year – if your church uses the calendar year, this would be the last calendar year. The age is only an estimate – don’t stress, just guess!
