## **Food Security**

Communities are learning innovative and sustainable agriculture practices to increase crop yields, improve nutrition, and build resilience to environmental changes.

## **Livelihoods**

Families are empowered to meet their basic needs through education, skills training and small business development. When one person becomes self-reliant they are able to improve their quality of life, shape their own future, and lift up others in their community.

## **Health**

By ensuring mothers and children receive the medical care they need, caring for people affected by HIV and AIDS, and providing access to water and sanitation programs, families and communities are growing healthier and stronger.

## **Human rights**

Injustices are combated through a shared commitment to human rights, with a special focus on promoting and protecting rights for women, children, workers, subsistence farmers, persons with disabilities, and refugees.

## **Refugees**

No one is a refugee by choice. By sponsoring refugees to Canada, and advocating for and supporting refugees and displaced people around the world, families are able to rebuild their lives without fear of persecution.

## **Emergency Relief**

In the aftermath of conflict and disaster, immediate and long-term relief ensures the most vulnerable people have access to food, shelter and medical attention, and are able to recover from economic loss and emotional trauma.
