

“Like good stewards  
of the manifold grace of God,  
serve one another with  
whatever gift each of you  
has received.”

– 1 Peter 4:10

# We Respond

Living out the grace of God, Presbyterians in Canada are responding around the world to serve those burdened by poverty, hunger, displacement and injustice.

Your gifts in support of Presbyterian World Service & Development’s life-changing development and relief programs are planting seeds of hope—helping girls go to school, teaching farmers to cultivate plentiful harvests, meeting the needs of refugees and equipping communities to recover from disaster. Thank you for responding with us to nurture new life!

**With the support of Presbyterians across Canada, PWS&D responds to situations of poverty, hunger, injustice and disaster. Together we work for a sustainable, compassionate and just world.**

## Food Security

Communities are learning innovative and sustainable agriculture practices to increase crop yields, improve nutrition and build resilience to environmental changes.

## Livelihoods

Families are empowered to meet their basic needs through education, skills training and small business development. When one person becomes self-reliant, they are able to improve their quality of life and lift up others in the community.

## Health

By ensuring mothers and children receive the medical care they need, caring for people affected by HIV, and providing access to water and sanitation, families and communities are growing healthier and stronger.

## Human Rights

Injustices are confronted through a shared commitment to human rights. PWS&D is promoting and protecting the rights of women, children, subsistence farmers, persons with disabilities, and refugees.

## Refugees

By providing assistance to refugees and displaced people around the world and accompaniment to Canadian congregations sponsoring refugees, PWS&D is helping families rebuild their lives without fear of persecution.

## Emergency Relief

Immediate and long-term relief during times of conflict and disaster ensures that those affected have access to food, shelter, water and sanitation, and psychosocial support.
